SciELO Brazil Criteria
Open Science Compliance Form

Version of June 29th, 2020

Through this form, the authors inform the journal about the conformity of the manuscript with Open Science communication practices. The authors are requested to inform: (a) if the manuscript is a preprint and, if so, its location; (b) whether data, software codes and other materials underlying the manuscript text are properly cited and referenced; and, (c) whether opening options are accepted in the peer review process.

Manuscript: Kirkpatrick-Based Framework Integrating Safety and Sustainability in Aviation Maintenance: Waste Reduction and Resource Efficiency

Preprints

Deposit of the manuscript in a preprint server recognized by the journal.

Is the manuscript a preprint?	
( )	Yes - Name of the Preprint server: Preprint DOI:
(X)	No

Research Data and other Materials Availability

Authors are encouraged to make available previously or at the time of publication all content (data, software codes and other materials) underlying the manuscript text. Exceptions are allowed in cases of legal and ethical issues. The objective is to facilitate the manuscript evaluation and, if approved, contribute to preserving and reusing the contents and research reproducibility.

Are the contents underlying the manuscript text already available in their entirety and without restrictions or will they be at the time of publication?	
( )	Yes: ( ) the contents underlying the research text are included in the manuscript ( ) the contents are already available ( ) the contents will be made available at the time of publication of the article. Titles and respective URLs, access numbers or file DOIs of the contents underlying the article text follow below (use one line for each data):
(X)	No: ( ) data is available on demand from referees ( ) after publication the data will be available on demand to authors - a condition justified in the manuscript (X) data cannot be made publicly available. Enter a justification: the individual-level records belong to an aircraft-engine maintenance facility and are covered by commercial confidentiality under a data-sharing agreement; the aggregated metrics that support the findings are reported in the manuscript (tables and figures), as stated in its Data availability declaration.

Open peer review

Authors may choose one or more means to opening the journal peer review process.

When offered the option, authors agree with the publication of review reports of the approved manuscript?	
( )	Yes
( )	No
When offered the option, authors agree to interact directly with reviewers responsible for evaluating the manuscript?	
( )	Yes
( )	No
